

## TILE PR 120

### Ceramic Primer

#### Description

**TILE PR 120** is an acrylic polymer based primer suitable for adhering ceramics on ceramic floors. It is used to reduce the absorbency of the surface.

#### Fields of Application

It can be suitable to increase adherence on ceramic, glassy, mosaic or wooden surfaces.

#### Features and Benefits

- Excellent adhesion performance.
- Easy to use.
- Prevents rapid water loss of the mortar before cement and gypsum based coating applications.
- Non odour. Safely use in indoor.
- Resistant to moisture.
- Provides waterproofing.

#### Technical Data

Content	Acrylic Resin
Thinning	Ready to use
Application Tools	Brush / Roller
Drying Time	
<i>Waiting period between the coats</i>	<i>1 hours</i>
<i>Last coat</i>	<i>3 hours</i>
GTIP No	3208.90.91.00.23

#### Application Procedure

##### Preparation of Substrate

Application surfaces should be clean off the rust, dirt and moisture. Surface should be clean and dry.

# TILE PR 120

## Ceramic Primer

### ***Application Method***

Before the application product should be mixed 3-5 minutes until homogenous mixture obtained. Product is ready to use. Does not diluted.

### **Consumption**

1,0 kg material primed 6-8 m<sup>2</sup> area.

### **Packaging**

20 kg plastic bucket

### **Shelf Life**

12 months in original, unopened package.

### **Storage**

Store in dry area between +5°C and +35°C. Protect from heat, freezing and direct sunlight.

### **Cleanup Information**

Clean tools and equipment with industrial type solvents immediately after use. Dried material can only be removed mechanically.

### **Cautions / Limitations**

- Does not provide waterproofing by itself.
- It may be harmful with skin contact.
- Do not apply in freezing conditions or during precipitation.
- Protect applied materials from rain, freezing, foot traffic and continuous high humidity until completely dry.
- Do not use when air and surface temperatures are below +3°C and above +35°C.

### **Health and Safety**
